μC/Shell

V1.03.00

Release Notes

www.Micrium.com

Revision History

Version	Date	Description
V1.03.00	2011 October	Configuration moved from app_cfg.h to shell_cfg.h
V1.02.00	2011 July	Bug fixes
V1.01	2010 Apr	Bug fixes & improvements
V1.00	2007 Sept	First version released

Requires the following versions of needed Modules

Version 1.03.00

μC/CPU Version 1.29.00

μC/LIB Version 1.30

Version 1.02.00

μC/CPU Version 1.22

μC/LIB Version 1.30

Version 1.01

μC/CPU Version 1.22

μC/LIB Version 1.30

Version 1.00

μC/CPU Version 1.18

μC/LIB Version 1.24

Changes

Version 1.03.00

N/A

Version 1.02.00

N/A

Version 1.01

Replaced `SHELL_ASCII_CMD_NAME_DELIMITER` with `SHELL_ASCII_ARG_END`.
See also 'Corrections V1.01-002'.

Version 1.00

N/A

Corrections

Version 1.03.00

N/A

Version 1.02.00

Added `SHELL_ASCII_CMD_NAME_DELIMITER` so that both underscore (`_`) and `SHELL_ASCII_ARG_END` are verified when parsing module name. This change recovers the ability to precede command names with module names.

Version 1.01

V1.01-001

`Shell_CmdSearch()` failed to initialize the receive command name table. Fixed by initializing the table.

V1.01-002

`Shell_ModuleCmdNameGet()` incorrectly used `'_'` as delimiter between arguments. Fixed by using `'\0'` as argument delimiter.

Version 1.00

N/A

Known Problems

Version 1.03.00
